PROFESSIONAL SUMMARY

AI-Powered Frontend Developer specialized in building modern, scalable web applications using React, TypeScript, and JavaScript. Expert in responsive interfaces, interactive components, and performance optimization. Proficient in leveraging AI tools to accelerate development, automate workflows, and solve complex problems. Passionate about modern technologies, clean-code practices, and creating intuitive digital experiences.

TECHNICAL SKILLS

- **Core Skills:** Problem Solving, Cross-functional Collaboration, Technical Documentation, Continuous Learning
- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, Sass
- **Frontend:** React, Next.js, React Router, TanStack Query, Zustand, React Hook Form, Zod
- **Backend:** Express, REST API
- **Styling:** Tailwind CSS, GSAP, Three.js
- **Tools:** Git, GitHub, PNPM, Vite, ESLint
- **AI & Automation:** OpenCode, Custom AI Agents, MCP Servers

PROFESSIONAL EXPERIENCE

Menu QR

03/2026 – Present

Frelance Developer

Remote

- Design and development of offline-first desktop app for restaurants using Electron, React, Express, and SQLite.
- Migration of web app to Electron with offline-first architecture to resolve frequent internet outages.
- Implementation of admin panel with JWT, drag & drop CRUD, floating promotions, and dynamic QR.
- Responsive public menu accessible from phones via local WiFi.
- Real-time editing of menu, logo, products, categories, and promotions.
- App in production and operating at a local restaurant.

UXP Programming

08/2025 – 02/2026

Frontend Developer

Remote

- Development of professional responsive web interfaces with Webflow, HTML, and CSS.
- Implementation of custom JavaScript solutions to extend functionalities.
- Performance optimization — 40% improvement in Lighthouse, technical SEO, and cross-browser compatibility.
- Application of UX principles.

FEATURED PROJECTS

Menu QR

Offline-first digital menu for restaurants with frequent internet outages. Migrated web app to Electron — embedded Express + SQLite, responsive public menu from phones on WiFi. Admin panel: CRUD with drag & drop, floating promotions, dynamic QR. Everything editable in real time. Running in production at a local restaurant.

React, Express, SQLite, Electron, TanStack Query, Shadcn/ui

MacBook Pro

Interactive product landing page with 3D visualization and fluid animations, focused on modern UI design, responsive layout, and attractive presentation.

Vite, React, JavaScript, ESLint, Zustand, Tailwind CSS, Three.js, GSAP

Beats 3

Landing page focused on modern UI design, structured interface, and clear product presentation.

Vite, React, JavaScript, ESLint, Tailwind CSS, GSAP

HooBank

Landing page focused on modern UI components and structured presentation of digital finance services.

Vite, React, JavaScript, ESLint, Tailwind CSS, GSAP

EDUCATION

Telecommunications and Electronics Engineering
Río, Cuba
